PROJECTS

- Designed and developed an online bookstore REST API using Django, Django REST Framework, and PostgreSQL. Implemented search, filtering, and pagination with token-based authentication and role-based access.
- Engineered a facial recognition-based attendance system using OpenCV and Python, with attendance data

logged in a MySQL database. Also developed a GUI using Tkinter for admin operations and reports.

- Created a responsive personal finance tracker web app using Flask and Chart.js. Users can categorize expenses, generate monthly reports, and visualize spending trends with dynamic charts.
